

Year 1 Willaston Weekly Distance Learning Week 2

Daily Reading

Ensure your child reads everyday. Please access Oxford Owls for your books as they are similar to the Guided Reading books that we send home every week. Check that they are sounding out the words correctly and using picture clues to help. Point out the different punctuation marks and check the children can retell the story in the correct order.

Writing Tasks

This week we are going to be smashing those **independent** full sentences! Please make sure you say your sentence before you write it. Say it to the ceiling, walls and floor so you hold it in your head. Use a capital letter at the beginning of your sentence or when it is somebody's name. Sound out each word using Fred Fingers (pinch the sounds on to each finger eg, s-p-or-t). Use finger spaces between each word and end with a full stop. Write about your favourite traditional tale and why. Who is your favourite character and why. Who is your favourite villain and why. Traditional tales can be watched on youtube eg, Little Red Riding Hood, The Gingerbread man, The 3 little Pigs, Goldilocks and The 3 Bears.

** Cut and stick from a magazine or newspaper the matching lowercase and uppercase (Capital) letters. Eg a A, b B, c C

Phonics - please watch https://www.youtube.com/channel/UCo7fbLgY2oA_cFCI9GdxtQ

This is the Phonics channel on you tube and this is how I would teach phonics in school Your child can watch this from 9am - 10:30 with the different speed sounds lessons I would recommend set 2 and set 3 sounds. These videos only last 24 hours at a time so try and watch each day!

Failing this I have attached powerpoint presentations to practice speed sounds, learn a new sound, Red words, Green words and writing practice.

Maths focus

This week we are continuing to work on multiplication and division by counting in 2's and 5's. The main focus for each lesson is written at the top of the attached power point slides. Each presentation has enough activities to last for 2 days and there are questions that will extend the children's thinking on the end slides. You could ask your child to come up with their own questions to solve and get them to explain the answer and their thinking to you. You can also use lego pieces to help teach the multiplication and division work - use them as cubes. You can also make your own tens frames using egg boxes or draw them out on a piece of paper. Continue to explore counting in 2s and 5s by choosing a number within 50. Count out that many objects (lego works well and put them into tens frames - this will help with accurate counting), and see if this amount of objects can be shared equally into groups of 2, groups of 5 or groups of 10. Note down what you find out and notice can you see a pattern or rule?

Science

HELP! The Gingerbread Man needs to escape from the fox! Can you help him to build a raft to cross the river? Make a raft from different materials to test which one will be suitable in water. You can test sticks, cardboard, plastic etc. test them in your sink, bath or a bucket of water. Note down which materials worked best and why. You could even make your own gingerbread man to test the raft.

Easter Fun!

Make egg shaped number cards to 20 or even 50. Hide them around your house or garden. Find them and then put in the right order.
Boil some eggs and have an egg and spoon race! Remember no cheating!
Make a pop up Easter Card for a neighbour or a member of your family.
Paint or draw a blossom tree. Finger painting is a great way to do this.
Make chocolate nests with Shredded Wheat or Rice Crispies.
Research: How do many Christians celebrate Easter?

Ongoing ideas to support your year 1 child -

Make a diary of your day to day life at home and draw a picture. (bring in once school is open again.)

Handwriting practice - watch this youtube video with a paper and pencil to form letters correctly.

<https://www.youtube.com/watch?v=ePrSi2Vp0hM>

Use phonics sound mats to practice letter sounds.

Counting forwards and backwards within 50.

Practice counting in 2s 5s 10s

Number formation - please see the attached powerpoint to help form numbers correctly.

Follow White Rose Maths on Facebook - join Year 1 maths group. Each day there will be activities posted to facebook specifically for year 1.

Follow Oxford Owls on Facebook and they post activities daily and their website is free at the moment for Ebooks - these are similar to the phonics books sent home. Search Read Write Inc E Books.
