

Year 6 Willaston Weekly Distance Learning Week 1

Daily Reading

Ensure your child reads everyday. Check that they are reading accurately and have a clear understanding of what they have read. Ask questions throughout and see what they can recount/remember about what they have been reading. Have a look at Oxford Owls website for suitable books online, the First News is available on line from our school website.

Writing Tasks - Fiction

Start your thriller/suspense story. Make a plan - where is your setting going to be? Remember to describe it using the types of tools we have been focusing on in class. You will need to include characters - thinking about the way we have mag pied ideas about introducing characters from other other other stories we have read. You could use google.docs to share your stories with a friend to edit and with me. I will put some sample stories on google classroom for you to edit and compare.

Writing Task - Non fiction

Create a persuasive leaflet about your company's healthy, nutritious snack - you created these in your groups last week. Remember you need to use persuasive language and devices to persuade athletes to want to buy your snack.

Maths focus -

This week we are continuing to work around fractions.

Use the lesson plan from our school website - Year 6 Week 1 Maths Power point

You could choose to watch a fractions how to video from you tube to help you.

Using online websites from our suggested lists on our website (based around fractions this week) will continue to make learning fun.

Topic/Science

We will complete the last few weeks of our Art of being Human Topic. This week we are going to look at 'blood'.

Think about how you would do a SOLE session in class, have a go at the research question and prepare a poster/presentation. **'Do all our bodies use blood in the same way?'**

Keep a food diary - look at the nutrients you eat the most, and the least. How could you improve your diet?

Plan and prepare a menu for a healthy balanced meal for your family - if you can, help to make it and take photos of the final meal.

Ongoing ideas to support your year 6 child -

Practice and recall 6,7,8 and 9 times tables.

Have a look at the ongoing resources and websites for year 6 and choose some activities to complete each day.

Keep a diary - not just about what you are doing, but what is going on in the world too - this will be time of great change.

Practice spellings - this week we have been investigating prefixes
ir - irresponsible
im - immature
in - inactive

How many words can you find with these prefixes? DO you understand what they mean? Could you use some of them in a sentence?

Review a film or book that you have watched or read this week.
