

Year 6 Willaston Weekly Distance Learning Week 6

Reading

GOLDFISH BOY! This week just enjoy listening to the story so far, chapter 9 is large so I'm not going to take pictures of it, I'll just read it in two parts. See [Google Classroom](#) for video!

Further reading - the First News is available on line from our school website - have a go at one of the quizzes!

Don't forget to do your own reading or audio listening - Amazon audible is free for children whilst schools are closed!

Writing focus - this week we are going to begin a talk for writing unit of work that will last for a few weeks. The theme of this unit is 'Doors - the world of possibility'. Please follow the attached activities (you should hear my instructions!) - there will be some poetry work, reading, art and story writing included in this unit over the weeks to come. This week there are two activities to complete - when you have completed your Magical Door Poems please share with the class.

Also, if you have any time this week have a go at a radio blogging session with Pie Corbett - it is so good! I did one last week - if you do it live, online, you often get your writing read out by the authors!

Maths focus - this week we will begin a unit of work on decimal numbers - there is a lesson powerpoint on decimal numbers to look at and some practice work - you should be able to hear my voice over on this powerpoint! I've attached a link to a useful video on adding decimal numbers and some further questions for you to practice this concept. REMEMBER if you are struggling with this in anyway - please ask!

<https://corbettmaths.com/2013/03/28/adding-decimals/> useful on line video!

Make sure that you are completing a fluent in five or a timetable quiz daily. I have also attached some new daily questions called rapid reasoning for you to have a go at - let me know your feedback on these!

Topic - Art - this week your art work is linked to our English unit about 'doors'. Take a look at the art information sheet attached and have a go at designing, drawing, painting or even building your own door.

On your daily walks try to take photos of interesting doors on your phone - try to visit the fairy glen - there are tons of interesting doors to be found in there! On instagram I follow a runner who takes pictures of fantastic doors that she sees on her running routes.

Science - please see attached instructions for 'Grow a rainbow' experiment. Please post pictures of how it goes!

Geography skills - this week we are going to start looking at a topic about mountains/hills - we will begin by looking at how mountains and hills are represented on maps - starting with the Isle of Man. (see attached challenges).

Junior achievement - our friends at Junior Achievement have sent an activity for you to have a go at - see attached activity sheet and this link will take you to a video to explain the activity <https://vimeo.com/410623871>

Ongoing ideas to support your year 6 child -

WELL DONE TO EVERYONE WHO IS HAVING A GO AT TT Rock Stars -I CAN SEE WHO HAS BEEN PRACTISING!!

PE - Active Souls have added further activities for you to try in your garden, house or street - letsplay@activesouls.co.uk

If you are interested in keeping a journal, there is a great link to ideas for one below - if you would like a printed version, email me and I can leave you a copy at CYB school. [https://](https://4a90c90a-82ae-46a9-911b-b051e2f82fcb.filesusr.com/ugd/efb57c_146f7d900e07464eaca93bdbbb9c3076.pdf)
